

neutral ships would be endangered nor lives of non-combatants imperiled in carrying out the provisions of the decree.

In this respect, the British action was contrasted with the note of warning from Germany that her submarine warfare might result in the loss of neutral ships and cost the lives of non-combatants.

Austrians Refuse Every Concession to Block Italy's Ambition

ROME, March 15.—A Trieste correspondent reports that Emperor Francis Joseph received in audience Baron von Burian, minister of foreign affairs, who subsequently presided over a cabinet council and conferred with the German ambassador.

Baron von Burian communicated to the Emperor Prince von Bülow's proposal for averting Italy's intervention by the immediate cessation of the Trentino and rectification of the Italy-Austrian frontier. Despite the Emperor's absolute refusal to sanction any cession of territory to Italy, and insisted on Prince von Bülow's negotiations with the Italian Government being broken off.

Meanwhile Germany is said to have been called upon to send Bavarian troops to the Tyrol, where the concentration has already been started, and the fortifications of the Trentino are expected to be fully manned within a week.

KAISER EXPECTED TO PAY FIVE CLAIMS

With the German auxiliary cruiser Prinz Eitel Friedrich practically sealed up by the British cruisers patrolling the waters outside the Virginia capes, the various questions raised by the activities of the sea rover and its entrance into Hampton Roads are nearing an early settlement.

The State Department has been told that Ambassador von Bernstorff desires the five cases disposed of with little delay. Although the ambassador is said to have no instructions from his government, it is confidently felt that Germany is preparing to disavow the act of the commander of the Eitel Friedrich in sinking the Frye and her cargo, and to grant reparation while expressing regret.

As soon as the State Department obtains from Sewall & Co., owners of the Frye, a statement of the value of the vessel and cargo, and the amount of damages, representations will be made to Germany.

Concerning the report that two of the crew of the Frye are detained on the Eitel Friedrich, the State Department's information is that they are returning to their own accord. The men are Charles Frank and Robert Rogge and they are said to be German subjects. On the other hand, dispatches from Newport News say that sworn statements made by other members of the Frye's crew to the collector are that one of the men was detained against his will. The State Department anticipates no serious difficulty over it.

Secretary of the Navy Daniels is going to Newport News today to the launching of the new battleship Pennsylvania. It is possible he will pay a visit to the Prinz Eitel Friedrich while in Hampton Roads.

The naval board detailed to inspect the sea rover has been ordered to make a report to the State Department. The board would be required to make a report to the State Department. Commander Thierichsen estimates that it will take two weeks.

The decision as to the period the German vessel may remain in port will rest with the State Department acting under advice of the Navy Department, but the United States will make no announcement that may be construed as one giving information for the benefit of the enemies of the Germans.

The German commander says he intends to slip out to sea. But American naval officers consider this would be little short of folly.

The German policy has been to conserve its navy and merchant vessels, and there is little serious expectation that Berlin will permit an excellent merchant ship to be destroyed or nothing. Berlin probably considers that, while the British cruisers are busy off the Virginia capes patrolling against the escape of the Prinz Eitel Friedrich, they are kept from employment elsewhere. Interment is still expected by American officials.

Sea Rover's Master Prepared for Battle Even With Women on Craft

NEWPORT NEWS, Va., March 15.—Captain Thierichsen of the Prinz Eitel Friedrich was determined to go down fighting, if necessary, in spite of the presence of women and children aboard his vessel, according to the details of a conversation between the commander of the French Florida made public today.

As the Prinz Eitel Friedrich was making the best time she could with her disabled boilers toward Newport News, with English warships sweeping the seas for her, the commander of the Florida, concerned for the safety of the women and children among the passengers, asked Captain Thierichsen what he would do to insure their safety in the event of being overhauled by a war craft of the allies.

"If you would run up ahead of me, I would not mind," he replied, "if they did not believe the signal." The German commander replied, "There would be nothing for me to do but to give battle."

The German commander, it is intimated, has given no orders for repairs to the shipbuilding company other than for the painting of his hull, and that whatever other repairs are needed his own men will make.

THE WEATHER REPORT.

The forecast for the District of Columbia—Unsettled tonight and Tuesday; warmer tonight.

Maryland—Unsettled tonight and Tuesday; probably rain or snow in west portion tonight; warmer tonight; gentle shifting winds.

Virginia—Unsettled tonight and Tuesday; except generally fair in southeast portion; gentle to moderate shifting winds.

TURKS PREPARE TO EVACUATE SMYRNA UNDER BRITISH FIRE

More Warships Sent to Renew Bombardment of Batteries Protecting Seaport.

MINE SWEEPERS AT WORK

Allies Expected to Land Troops Near Bualir—Constantinople in Panic.

LONDON, March 15.—The fall of Smyrna before the end of the week is predicted in dispatches from Athens.

More warships have been sent to reinforce Rear Admiral Peirce, whose squadron is smashing away at the Turkish forts, and the Smyrna garrison is reported to be preparing to evacuate.

Meanwhile another attack on the Dardanelles forts has been begun from inside the strait.

Mine-sweepers, whose work was hampered by the fire from Turkish land forces on the European side, have resumed clearing the waters inside the entrance under the protection of French cruisers.

Shell Land Batteries.

Several allied battleships steamed into the strait early yesterday, according to Athens dispatches, and their shells are grinding away again at the land batteries.

The attempt to seize the isthmus above Bualir and cut the line of communication from Constantinople to the European forts has been renewed.

The super-dreadnaught Queen Elizabeth, supported by several cruisers, is pounding away at the enemy's batteries from the Gulf of Saros. Parts of the allied expeditionary force en route to the Dardanelles, will be landed near Bualir, it is believed at Athens, if the Queen Elizabeth succeeds in silencing Bualir's guns.

Constantinople Banks Send Gold to Berlin

EUCHARIST, March 15.—German banks at Constantinople are making heavy shipments of gold from Constantinople to Berlin, according to dispatches received here today. Seven German merchants in the Ottoman capital are preparing to leave.

U-29 Eludes British After Three-Day Raid Off English Coast

U-29 Eludes British After Three-Day Raid Off English Coast

LONDON, March 15.—The submarine U-29, one of the largest and fastest of German under-water craft, had a successful three days of the Selly Islands in the English channel, where, on Thursday, Friday, and Saturday, she succeeded in sinking four British steamers and one French steamer and in damaging three others.

The German commander gave the crews of the steamers the time to leave their vessels and in some cases towed the ships' lifeboats with the crews to passing steamers by which they were brought to port.

The U-29 was chased by patrol boats, but proved too elusive for them.

Americans Not Allowed To See Forts at Bremen

HARWICH, England, March 15.—The captain of an American steamer arriving here today reported that the Germans at Bremen are taking no chances upon the character of their new harbor defenses becoming known.

Before leaving the harbor the American skipper said, he and all members of his crew were forced to go below. Germans navigated the vessel out of the harbor.

Three British Ships Lost, Admiralty Admits

LONDON, March 15.—The admiralty today made the official announcement that the steamers Florizan, Headlands, and Hartdale were sunk by submarine attack.

In an official statement it was stated that these steamers were victims of mines or torpedoes.

McAdoo Much Better.

Secretary of the Treasury McAdoo, operated on for appendicitis last week, showed pronounced improvement today.

EXPECT MRS. ANGLE TO TESTIFY TODAY

Society Women Pack Court Room as Bridgeport Murder Trial Is Resumed.

BRIDGEPORT, March 15.—Fashionably gownned women were among the throng which today attended the trial of Mrs. Helen M. Angle for alleged murder of Waldo Ballou. Prospect that Mrs. Angle would go upon the witness stand swelled the crowd to unusual proportions.

Mrs. Angle was keyed up for the ordeal. Although much recovered from nervousness which followed her collapse in court twice since the trial opened March 3, her counsel feared most of all an attack of hysteria while under cross-examination.

A few witnesses were in readiness before Mrs. Angle's examination was scheduled. The recalled Mrs. Klahre, police matron of Stamford, conclude her examination and also the State's case.

WED EIGHT MONTHS, LET SECRET LEAK

A romance which had its inception in school three years ago came to light today with the announcement that Wilbur G. Kramer, nineteen years old, and Miss Olivia Norris, eighteen, had slipped away to Alexandria eight months ago and were married.

Kramer's home is at 506 Third street southeast and the bride lived at 1014 street southeast. They will start housekeeping at the latter address next week.

The only persons who shared the secret were the bride's mother and the Rev. Father Morris, of St. Peter's Catholic Church.

Through the priest the pair secured a special dispensation from Cardinal Gibbons, in Baltimore, and Mrs. Norris accompanied them to Alexandria. The ceremony was performed July 19 last.

Kramer is employed in the Navy Yard. His mother said the news of the marriage was a surprise to her but that she was well pleased with his choice.

RICH YOUTH SPURNS GOTHAM FOR DESERT

HOLTVILLE, Cal., March 14.—Found in a desert construction camp as a dishwasher, by his wealthy mother, Herbert, twenty years old, son of R. B. Forchheimer, head of a big New York City importing house, will not return East to the home he left two years ago to carve his way in the West.

Instead of leaving a small acreage, which he was able to do by hard and persevering toil, Mrs. Forchheimer will advance her son the funds to acquire a ranch with the prospect that it will be the home for the mother, who will spend at least a part of every year here.

This is his country," Forchheimer said today. "When I left New York I felt as if I were leaving the earth. But I made good here. The money which I built up not only my health, but my self respect. I am not going home, for this is my home, and my mother, who is completely taken with this valley, is going to remain here, too."

Suffrage Pageant Will Honor Susan B. Anthony

Plans for a pageant to be presented here next December in commemoration of the fortieth anniversary of the proposal of Susan B. Anthony for an amendment to the Constitution enfranchising women, were announced today by Miss Alice Paul, head of the Congressional Union for Woman Suffrage. The performance, which will be staged in Convention Hall, will be under the direction of Miss Hazel MacKay, who had charge of the suffrage pantomime given on the steps of the Treasury department at the time of the Wilson inauguration.

Miss Anthony will be pictured as the Joan of Arc of the suffrage movement in America, it is announced. Episodes from her life, from early womanhood to middle age, will be dramatized, and each will present some decision which molded her career.

Bryan "Puts One Over" on Press

Goes to Philadelphia Without Letting Any Reporters Know.

After having "put one over" on the newspapermen at Atlantic City, Secretary Bryan, who returned today from the resort, will leave this afternoon for Philadelphia, where he will speak at a total abstinence meeting.

Mr. Bryan went to Atlantic City Saturday morning. He had been asked the hotel clerk to conceal the fact that he was stopping there. The Secretary lauged at the fact that a Philadelphia paper Sunday morning published that a "rumor" to the effect that he was at the resort had been investigated and found to be untrue.

The Secretary was accompanied by Mrs. Bryan. Sunday afternoon he took a six-mile walk along the boardwalk. Although he said he was recognized repeatedly by other promenaders, no newspaper man spotted him.

GARDENING ON ROOF FOR CITY DWELLER

Department Admits Proposition Is Feasible If Not Profitable. Favors Backyard Plots.

"Can city dwellers reduce the cost of living by gardening on their roof or back porches?"

This question has been put up to the Department of Agriculture by a city dweller.

The department has answered that it would be fun to try, but that it is the only thing officially guaranteed. To cart good rich dirt to the top of an apartment house, it was pointed out, was rather an expensive undertaking, but nevertheless it could be done. It was admitted that the proposition is feasible, if not profitable.

The department does not contend earnestly for backyard gardens, however, and a series of official bulletins is being issued to the public, telling of what to plant, how to plant it, and how to care for the garden once it begins to sprout.

14-Inch Gun for Hook Breaks Railroad Car

NEW YORK, March 15.—So heavy is a huge fourteen-inch gun completed to New York harbor from naval attack that it broke one of the two flat cars conveying it along the West Shore railroad, near Cornwall, on its way to the Arsenal.

It is said to be the most powerful fourteen-inch rifle ever made. It was on its way from Westville Arsenal when the journal of one of the cars, overtaxed by its excessive weight, gave out, and the gun had to be replaced.

The gun extends almost the length of the two cars.
